

Laurel & Cedrela

Laurel & **Cedrela** let us travel once again through the cloud forests of Nicaragua. These 2 regional blends bring together a mix of native and recently-introduced clones. Slow drying is standard in these humid communities. An additional interesting element is the carbon-neutral cocoa production by both centres adding to the environmental-friendly fingerprint. **Cedrela** has a *deep dough-like flavour, hints of wet forest, cumin and liquorice* and the chocolate has caramel body with *must pudding and dry cranberry notes*.

These profiles are developed by PAC, S.A., an organization conceived as a social enterprise whose organizational culture is strategically focused on inclusion and combating poverty in rural communities in Nicaragua, currently in highly productive areas of quality cocoa and coffee.

Quality - Taste Notes

LAUREL: cookie, pomelo, spicy, tannins, woody,

LAUREL: laurel woody, whisky-barrel notes, soloton-like perfume, spiciness, chocolatey

1.56 gr/bean Bean size 56%
Well fermented beans
